CMP TACTICAL LAZER TAG

SUNDAY JUNE 10

CMP Tactical Lazer Tag offers a new evolution of laser tag featuring high tech realistic simulated weapons and objective based gameplay. We don't have plastic phasers or silly glow in the dark arenas. We feature all metal rifles and realistic battlefields. Our game is much closer to a modern-day video game than the laser tag that might come to mind. We call it tactical laser tag, but even that doesn't do the excitement and adrenaline justice. You'll have to come in and try it out to really experience the thrill.
